

CLÍNICA DR. CARLOS FELEDER

PROF. DR. CARLOS FELEDER

PERFIL CURRICULAR

Carlos Feleder es médico graduado en la Universidad de Buenos Aires en 1992, realizó sus estudios de Doctorado en Medicina y procesos inflamatorios en la **Klinikum Experimentelle Endokrinologie de la Universidad de Goettigen, Alemania**, y se doctoró en Colaboración con la **Universidad de Buenos Aires en 1997** con el patrocinio de sus mentores Alemanes, Prof. Dr. Wuttke y Prof. Dr. Hubertus Jarry.

Desde el año 1999 ha trabajado y vivido en EEUU (es ciudadano Americano y argentino). Allí ha ocupado varios cargos, como: **Profesor con Tenure y Director de Farmacología, Inflamación y Neuroinmunología de la Universidad de Albany, Facultad de Farmacia y Bioquímica, Nueva York, EE.UU**. **Ha sido investigador Principal del Hospital Stratton de Veteranos de Guerra, Medical Center, Albany, Nueva York, y Co- Fundador e Investigador Principal del Centro de Nano-Neurociencias y Tecnología Médica de Albany en la State University of Nueva York, Albany.**

Como Profesor dirigió y dictó las materias Farmacología, Farmacovigilancia, Aspectos Regulatorios del Ensayo Clínico, Fisiología, Fisiopatología, Evaluación de Literatura Científica, Metodología Científica y Seminario en Farmacología y Terapéutica. Realizó educación virtual durante varios años y se dedicó a este tema en la Universidad de Albany.

Ha sido Director y Miembro del Consejo de Investigaciones de la facultad de Albany, Nueva York. También, **Director de Admisión del Máster en Ciencias Farmacéuticas de la Facultad Albany, Nueva York.** Asimismo, ha sido Miembro del comité de Evaluación y Promoción de Profesores, Facultad de Albany, Nueva York.

Entre sus cargos previos en Argentina, Alemania y Estados Unidos, cabe mencionar: **Profesor, Fundación Favaloro, Psiconeuroinmunoendocrinología y Endocrinología Ginecológica; Investigador del CONICET**; Jefe Trabajos Prácticos, Fisiología, Universidad de Buenos Aires-Facultad de Medicina.

Otros puestos que ha ocupado en el exterior son: **Becario de la Comunidad Europea, Universidad de Gottingen, Alemania; Investigador Asociado en Genética, St. Jude Children's Research Hospital, Memphis, Tennessee, EE.UU; Profesor e Investigador en neuroinmunomodulación celular, Universidad de Tennessee, Health Science Center, School of Medicine, Tennessee, EE.UU.**

Ha participado en la evaluación de proyectos científicos como Miembro del Comité evaluador de subsidios del American Heart Association, National Institute for Health Research of England, Dirección Nacional de Salud del Gobierno de Italia y del Albany College of Pharmacy and Health Sciences.

El Dr. Feleder publicó más de 50 artículos en revistas internacionales de alto impacto, como por ejemplo American Journal of Physiology, Shock, Journal of Neuroimmunology, Brain Research.

Ha sido evaluador en Revistas Internacionales de Investigación como el Journal of Comparative Neurology, Prostaglandins, Leukotrienes and Essential Fatty Acids, European Journal of Pharmacology, Physiology and Behavior American Journal of Physiology, Brain Research, Journal of Cardiovascular Pharmacology and Therapeutics, Journal of Medical Sciences, Journal of Applied Physiology, Stress Journal, Journal of Integrative and Comparative Physiology.

Asimismo, participó como Speaker Invitado en más de 150 conferencias alrededor del mundo, incluyendo Estados Unidos, España, Brasil, Canadá, etc. Entre sus colaboradores destacados, cabe mencionar a Peter Ward, University of Michigan; Irshad Chaudry, University of Alabama, Birmingham; Joseph Cheer, University of Maryland; Loren H. Parsons, Scripps Research Institute; David G. Stouffer, Scripps Research Institute; Kuei Yuan Tseng, Rosalind Franklin University, Camillo Ricordi University of Miami. El **Dr. Feleder es Profesor Titular de Salud Pública y de Investigación Clínica y Director del Departamento de Investigación de UCES, Director del Instituto de Salud Pública y Efectividad Clínica de UCES.** Ha sido designado Presidente del Comité de Ética Animal de UCES y del Comité de Ética en Investigación Clínica de ALPI. Es también Coordinador y Profesor del Doctorado de Salud Pública (UCES) y trabaja como Investigador Clínico en Argentina. Está desarrollando la "Telemedicina de Evidencia" en Latinoamérica. Es Director de la Diplomatura en Telemedicina e Informática Médica y de la Diplomatura de Medicina Integrativa de la Asociación Médica Argentina y Ex- Director de la Red Internacional de Salud Digital del Comité en Investigación Clínica. Asimismo, es miembro del Comité Editorial de las siguientes publicaciones, entre otras: Journal of Pharmacogenomics and Pharmacoproteomics, Modern Chemistry & Applications Research & Reviews, Journal of Pharmacology, Journal of Pharmaceutical Sciences and Pharmacology, Journal of Chemistry and Pharmaceutical Sciences.

Ha ganado el Premio de las Américas en Ciencia del Gobierno de los Estados Unidos para Latinoamérica en colaboración con la Universidad de Texas y realizado convenios Científicos Académicos con la Universidad de Harvard y el Hospital Beth Israel Deaconess Medical Center, Boston, Estados Unidos Y el Hospital de New York, Feinstein Institute. También es **miembro permanente de las conferencias de mesa redonda de ciencias básicas y clínicas de "Harvard".** Ha sido asesor de los gobiernos provinciales (estatales) y municipales en la lucha contra el COVID-19. Fue reconocido con una distinción del Senado de la Nación Argentina, Federación Argentina de Municipios, Federación Asociación Latinoamericana de Ciudades, Municipios y Asociaciones de Gobiernos Locales en el Salón Azul del Honorable Senado de la Nación de la República argentino. La distinción con la que ha sido honrado se confiere a aquellos representantes de gobiernos, legisladores, empresarios y profesionales, en el marco del Programa de Apoyo a las iniciativas de los Gobiernos Locales. Las instituciones organizadoras quieren reconocerlo por el aporte a la integración de Argentina en el mundo como "Líder por la Desarrollo", destacando su trayectoria y el enfoque innovador de su actuación como aportes al bienestar de nuestras comunidades, ejemplo de ello fue el ilustre personalidad cuyo nombre adopta. Senado Nacional de Argentina. También recibió distinciones de los Municipios (2023) por su tarea de innovación en Medicina y Recientemente fue designado Presidente de la Sociedad Argentina de Telemedicina de Evidencia científica dependiente de la AMA. **Es investigador grado superior del sistema nacional de Investigación** y ha trabajado realizando Investigación clínica tanto en el país como en el exterior para CROs y para Instituciones académicas.

MISIÓN

"A lo largo de mis años de investigación en medicina integral, he desarrollado y validado un protocolo basado en células mesenquimales. Este enfoque me ha permitido crear tratamientos para diversas patologías relacionadas con el dolor, inflamación y envejecimiento, cuyos resultados han sido documentados y publicados en estudios científicos. Estamos implementando todos estos procedimientos en la ***Clínica Dr. Carlos Feleder****, donde la fusión entre la investigación científica y la práctica clínica nos permiten ofrecer soluciones efectivas y validadas".*

To Whom It May Concern:

Please accept this letter as verification that Dr. Carlos Feleder has been employed by the Albany College of Pharmacy and Health Sciences from July 1, 2005 to the present. Albany College of Pharmacy and Health Sciences is located in Albany, New York in the United States.

Dr. Feleder has a full time faculty position as Associate Professor in the Department of Pharmaceutical Sciences, and in that role is required to be on campus while school is in session. As such, he resides within the regional area of the College.

If you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Julie Spath
Human Resources Manager

Carlos A. Feleder

Re: Employment Verification

Dear Dr. Feleder:

Per your request, this is to verify you are a previous employee at the University of Tennessee, Memphis. Your dates of employment are as follows:

06/01/01 – 03/31/02	Post-Doctoral Trainee Student/Full-time
04/01/02 – 11/30/04	Instructor Faculty/Regular-Full-time
12/01/04 – 06/10/05	Assistant Professor Faculty/Regular-Full-time

Sincerely,

Carolyn D. Griffin

To: Whom it may concern

Re: Carlos Feleder, MD PhD

This letter is for the purpose of providing employment verification. The employee listed above is a previous employee at St. Jude Children's Research Hospital in Memphis, Tennessee.

Start Date:	**07/10/2000**
Separation Date:	**05/31/2001**
Previous Position:	**Postdoctoral Research Associate**
Previous Status:	**Full Time**

If you have questions or need additional information, please contact our office Monday through Friday between 8:00a.m. – 4:30 p.m. at (901) 595-2362.

To whom it may concern

Dr. Carlos Feleder worked in our laboratory as a Ph.D. student from April, 1994 till November, 1995 funded by a stipend of the European Community. During this time, Dr. Feleder aquired detailed knowledge about neuroendocrine regulatory processes involved in the function of the GnRH pulse generator. He learned how to measure minute amounts of amino acid neurotransmitters in hypothalamic superfusates and applied this method to study the effects that GnRH has on its own secretion. He showed that a GnRH analog suppresses hypothalamic GnRH release indicating that a negative autoregulatory feedback action exists. Dr. Feleder also began his intensive studies concerning neuroimmunoendocrine regulatory processes and he showed that a number of microglia-derived cytokines appear to have effects on the function of the GnRH pulse generator.

In addition, Carlos learned molecular biological methods. He applied the quantitative GnRH PCR and helped to develop the GnRH receptor PCR.

On the basis of results obtained in Göttingen and in Buenos Aires, he wrote an excellent Ph.D. thesis and several scientific papers. On this basis the European Community referees voted to sponsor Carlos' with a stipend for a 18-months-period in Göttingen. He continued his in vivo and ex vivo studies to further elucidate the function of the GnRH pulse generator. He succeeded to collect data which again were published in outstanding journals.

Carlos is not only an intelligent and hard working fellow but at all levels in my unit a very much liked person. He was friendly and helpful to everybody. Hence, I do not hesitate to recommend him highly as an intelligent and hard working research associate.

Dr. Carlos Feleder
PRESENTE

Estimado Dr. Feleder:

La Fundación Gador tiene el honor de hacerle entrega del Premio Bienal "Dr. Esteban Montuori" año 1999, otorgado por la Sociedad Argentina de Investigación Clínica en memoria de quien fuera un entusiasta propulsor de la investigación en el país y benefactor de numerosos investigadores y centros de investigación de nuestro medio.

Este premio ha sido instituido con el propósito de reconocer el mérito de jóvenes investigadores en las ciencias médicas biológicas y estimularlos para continuar el camino iniciado. Felicitamos a Ud. y al grupo que lo acompaña por haber obtenido en forma compartida esta distinción al mejor trabajo de investigación en Endocrinología y Reproducción. Esperamos sinceramente que sirva para alentarlos a proseguir en la actividad que han elegido con la misma vocación y entusiasmo que hasta el presente.

Deseándoles a Ud. y a sus compañeros una carrera llena de éxitos y satisfacciones, nos despedimos muy cordialmente.

Fundación Gador

University of Tennessee HSC
Memphis, TN 38163

Dear Carlos,

I would be happy to collaborate on your project studying the role of spleen in febrile and innate immune responses. We will help you in isolating Kupffer cells, splenic macrophages and T-lymphocytes in order to study their role *in vitro* in the exaggerated febrile responses induced by LPS in splenectomized animals. We are very interested in identifying the, as yet unknown, splenic factor(s) mediating the anti-inflammatory and antipyretic effecs on KCs.

I look forward to a long and productive collaboration.

Sincerely,

Dr. Leslie R. Ballou

Faculty Evaluation Form

CARLOS FELEDER, PH.D.

July 1, 2003 - June 30, 2004

AREA Research Teaching Service

Rating*

(5 = Exceeds Expectations; 4 = Meets Expectations; 3 = Needs Improvement; 2 = Unsatisfactory)

Overall Rating: 5

Note: Overall rating was determined by adding total points so that 15-13 = Exceeds Expectations for Rank; 12-11 = Meets Expectations for Rank ; 10-8 = Needs Improvement for Rank; less than 8 = Unsatisfactory For Rank.

Comments:

Dr. Carlos Feleder has continued to contribute significantly during this past academic year to the progress of our research program. He has been the principal investigator and first author of two important papers published in major, international journals relating to the roles of the central noradrenergic system and of a new splenic antipyretic factor, discovered by us, in the regulation of the febrile response to endotoxin; he is also a co-author of one additional paper on the latter topic, now in press. Dr. Feleder is also the PI of a new NIH grant application that proposes to characterize this splenic factor; it was submitted on June 1, 2004. Finally, he is a co-author of three major reviews dealing with these topics. Dr. Feleder is an energetic and enthusiastic member of my group. He is knowledgeable, curious, dedicated, and enterprising. He is, thus, a wonderful collaborator, and it has been a continuing pleasure to have him in my group.

Clark M. Blatteis, Ph.D.
Professor

Leonard R. Johnson, Ph.D.
Thomas A. Gerwin Professor and Chair

Form 0001

University of Tennessee, Health Science Center
Summary of Annual Performance-and-Planning Review of Faculty
For the academic year beginning July 1, 2002

Name: Carlos Feleder, Ph.D. Rank: Instructor

Department: Physiology Full-Time: 100% Part-Time: ____%

College: Medicine Tenure Status: Tenured Yes ___ No X
On-Tenure-Track Yes ___ No X

1. Date of interview between chair and faculty member: ____

2. Is the Chair's (or designee's) narrative summary, based upon the goals and expectations agreed upon in 2002, attached?
   Does the narrative include a statement of progress toward tenure consideration, if the faculty member is on tenure-track? Yes ✓ No ___ N/A ___
   If required, is the Remedial Plan attached to the narrative summary? Yes ___ No ___ N/A ___
   Is the work assignment for the next academic year attached? Yes ___ No ___
   Are the mutually established goals for 2003-2004 attached? Yes ___ No ___

3. Chair's interview summary and evaluation was provided to faculty member on: 04/21/03

4. Is faculty member's optional response to the Chair's evaluation attached? Yes ___ No ___ N/A ✓

5. Overall performance rating:

Rating	Faculty Member	Chair
OUTSTANDING	C.A.F	
HIGHLY SATISFACTORY		
SATISFACTORY		
NEEDS IMPROVEMENT*		
UNSATISFACTORY*		

6. We have discussed the contents of this document.

feleder — Faculty Member — 04/21/03 — Date

Chair (or designee) — 04/21/03 — Date

*Requires a remedial plan to be attached

Distribution: Faculty Member, Department Files, Dean

Order of Attachments:
Chair's narrative summary of previously established academic goals
Remedial Plan, if required
Work assignment for next year
Mutually established academic goals for next year
Faculty member's response (optional)

Faculty Handbook of The University of Tennessee, Health Science Center
Approved by the University of Tennessee Board of Trustees on June 17, 1999
